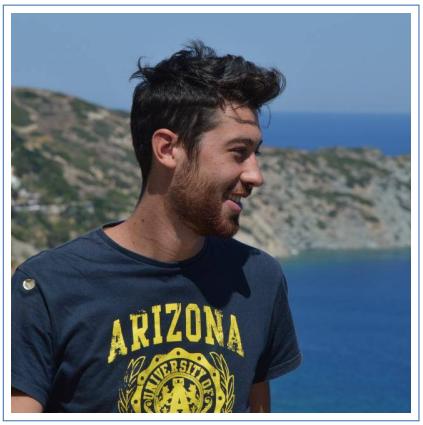
Lorenzo Fiaschi

Ph.D. Student



Personal Data

Hometown	Piombino, LI, 57025 Italy
Date of Birth	16th January 1995
Place of Residence	1 G. Rossini Rd, Pisa, PI, 56127, Italy
Voice	366-4415723
Office	050-2217689
Email	lorenzo.fiaschi@gmail.com
	lorenzo.fiaschi@phd.unipi.it
Web Site	www.lorenzofiaschi.it

Education

2019–present **Ph.D. in Information Engineering**, *University of Pisa*, Pisa, Italy.

2017–2019 **Master's Degree in Computer Science and Engineering**, *University of Genoa*, Genoa, Italy.
Thesis Title: Non-Archimedean Game Theory, a Numerical Approach (Supervisor: Marco Cococcioni, Alessandro Verri)
Mark - 110 cum Laude | Average Weighted Mark - 32.09 | Major: Machine Learning | Minors: Game Theory & Non-Standard Analysis

2014–2017 **Bachelor's Degree in Information Engineering**, *University of Pisa*, Pisa, Italy.
Thesis Title: Game Theory with Infinite or Infinitesimal Quantities: New Numerical Results (Supervisor: Marco Cococcioni)
Mark - 110 cum Laude | Average Weighted Mark - 28.73

Experience

Internships

2019 **Public Seminar**, *Machine Learning for non-linear dynamics inference and prediction*, Electronic Engineering Department, Genoa, Italy.

Description:

- sparse non-linear fields inference (potentially constrained)
- interpretable inference of a Koopman operator by means of autoencoders
- CNN and Pseduo-Huber loss for Dynamical Smoothing of non-linear stochastic fields
- Supervisor: Marco Storace

2018 **University Project**, *field: Computational Biology*, DIBRIS, Genoa, Italy.

Description:

- Collaboration with San Martino Hospital (GE)
- Exploitation of machine learning techniques (MKL) for prediction of heart attacks and dementia rising
- Data: genome,retina segmentation and common clinical information of 1000 people

Achievements:

- Design and implementation of the whole framework
- Improved prediction performances w.r.t. the literature

2017 **University Project**, *field: Non-Standard Game Theory*, Information Engineering Department, Pisa, Italy.

Description:

- Extension of Prisoner's Dilemma Tournaments to non-standard quantities
- Exploitation of the Grossone Methodology
- Numerical verification of the theoretical results in Matlab
- The study has been realized with the agreement of the University of Genoa

Achievements:

- Characterization of the solutions of a constrained infinite tournament, when they exist
- Numerical analysis of new and never studied tournament scenarios

Relevant Classes

Machine Learning	Machine Learning, Inverse Problems, Computational Vision, Bioinformatics & Computational Biology, Graph Analytics
NSA	Ultrafilters and Non-Standard Methods
HPC	High Performance Computing
Game Theory	Game Theory

Achievements (Scholarships, Fellowships and Awards)

2019 Winner of a three-year doctoral fellowship at Dipartimento di Ingegneria dell'Informazione, University of Pisa, granted by the Italian Ministry of Education, University and Research

2019 Winner of the "Springer Young Researcher Prize", for the best talk provided by a young researcher during the 3rd *International Conference on Numerical Computations: Theory and Algorithms* (NUMTA'19)

2009 Winner of the scholarship "Francesca Paola Nicotra", ranking first out of all the first-three-years high school students of Piombino (LI), Italy

Attended Conferences (* if presenting a work)

June 2019* 3rd *International Confonference on Numerical Computations: Theory and Algorithms* (NUMTA'19), Isola di Capo Rizzuto, KR, Italy

Attended Summer Schools and Seminars

September 2019 Summer school on Applied Harmonic Analysis and Machine Learning, Department of Mathematics, Genoa, Italy

December 2018 Seminar on "Weak Interactions", taught by prof. Andreas Maurer, independent researcher, Genoa, Italy

July 2018 2nd International Summer School on Deep Learning 2018, Genoa, Italy

Teaching

2019/2020 Assistant lecturer of Elements of Programming, Information Engineering Bachelor's degree, 28h, 9 CFU, 150 students)

Service to the Research Community

Fiaschi has been program committee member of the following conferences:

6–9 December 2019 IEEE Symposium on Computational Intelligence for Security and Defense Applications (IEEE CISDA), Xiamen, China

Language Skills

Italian mother tongue

English fluent: attended for two years master's classes taught in English (2017-2019), B2-level Cambridge Certification (2012)

Computer Skills

Programming Languages C and C++11 (advanced), Java (advanced), Julia (advanced), Python (advanced), SQL (fair)

Parallel Paradigms	OpenMP (advanced), MPI(advanced), OpenCL (basic)
Math Packages	Matlab (fair), R (basic)
Typesetting Packages	Latex (advanced), Microsoft Word (advanced), Microsoft PowerPoint (advanced)
Development tools	Visual Studio Code (advanced), Anaconda (advanced)
Database	MySQL (fair)
